

colorfast[™] EX

Extended Life Aliphatic Polyurethane

Modern Masters® Colorfast™ EX system consists of a two-component aliphatic acrylic polyurethane topcoat and a two-component epoxy primer. When used together as a coating system, it provides the ultimate in a high performance finish, achieving rich vibrant colors with excellent color and gloss retention that's also easy to apply and has minimal VOCs (volatile organic compounds) and HAPs (hazardous air pollutants).

The Colorfast EX high performance two-component aliphatic acrylic polyurethane **topcoat** is specially formulated with ingredients that are resistant to UV degradation. Use the Colorfast EX wherever an extremely durable, corrosion, chemical and abrasion resistant finish is desired and where excellent color and gloss retention is a must, regardless of your color selection.

The Colorfast EX high performance two-component high solids epoxy **primer** is specifically designed for application directly to sound rusted steel, clean steel, galvanized metal, concrete, previously coated surfaces and slightly damp surfaces. This primer contains <100 g/L VOC and can be used inside or outside (must be topcoated when used outside). The Colorfast EX epoxy primer comes in either gray or white.

Colorfast EX Aliphatic Acrylic Polyurethane Topcoat

- The ultimate in a high performance, ultra smooth finish that provides rich, vibrant colors with excellent color and gloss retention that are chemical and abrasion resistant
- Four sheens available: matte, satin, semi-gloss and gloss; Tintable using 844® colorants
- User friendly formula provides a 2 to 3 hour pot life
- Dries to the touch in 1 hour
- VOC compliant nationwide with minimal HAPs

Colorfast EX Epoxy Primer

- Adheres to multiple substrates including sound rusted steel with minimal surface preparation
- Available in gray or white
- User friendly formula provides a 2 to 4 hour pot life
- 24 hour recoat time
- VOC compliant nationwide

A pot life of over two hours with a fast dry time

Topcoat available in four sheens that can be tinted with 844® colorants

VOC compliant nationwide
