MasterClear Supreme

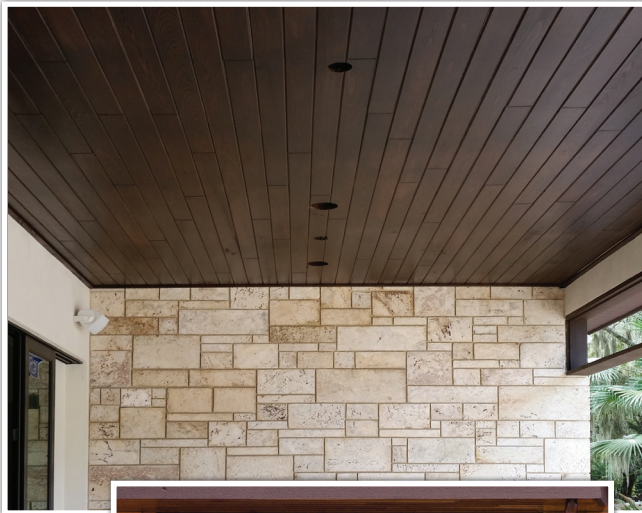

Advanced resin technologies protect **Interior surfaces** against abrasion, scuffing, chipping, water, alcohol, household chemicals and **Exterior surfaces** from oxidation, salt-air, chlorine, acid rain, bird droppings, mildew, etc. **Innovative Low-VOC formula** has outstanding gloss retention and clarity with added UV Blockers and Absorbers that actually protect stained wood and painted surfaces from the graying and fading effects of the sun.

water base technology that works!

Recommended Surfaces

Exteriors UV and weather resistant, it extends the life of previously painted surfaces, stained or unstained wood, such as doors, porch surrounds and supports, decorative moldings, painted façade, garage doors, and outdoor furniture.
