

Create a Myriad of Shimmering Wall Finishes

Finding a color that suits your project has never been easier. You can create a custom tint using Shimmerstone or choose from a wide variety of standard pre-mixed Metallic Plaster colors. All standard metallic colors are inter-mixable for creating one-of-a-kind custom colors and allowing for on-site color modification.

PERFECT FOR:

Residential • Hospitality • Restaurants
Casinos • Theatres • Corporate Offices

ShimmerStone® Tintable Base

ShimmerStone® is trowel applied, durable, water resistant, mold & mildew resistant and will adhere to any primed surface. This lightweight shimmering coating applies easily with a trowel and can be used to create a wide variety of decorative finishes. It does not lift when used with Modellos™ or stencils with adhesive sprays or painter's tape, making it perfect for multilayer finishes. The Tint Base can be used untinted or custom tinted using small amounts of water base colorants. Available in quart and gallon container sizes.

Pre-Colored Metallic Plaster

A pre-colored, trowel-applied, architectural coating that emits a symphonic blend of shimmer, luster, elegance and environmental friendliness. Metallic Plaster is mixed and color matched in our factory for consistent project results and available in 25 standard colors. It is durable, water resistant, mold & mildew resistant and will adhere to any primed surface. This lightweight water base coating applies easily and can be used to create a wide variety of decorative finishes. Available in gallon size only.

Japanese Trowels

We searched the globe for a set of trowels with the right balance of feel and strength to apply our Shimmering Plasters and found them in Japan. Produced in the same region as the famous Samurai swords, these light weight trowels are made of 3 mm stainless steel, the thinnest in the world, which makes them extremely flexible and yet, incredibly strong. Our Modern Masters branded Japanese trowels are professional grade and will outlast and out perform other imported Japanese trowels. Available in 225mm, 240mm and 270mm sizes.
